Kandeer School

TERM 1 WEEK 2

2017

Welcome Back!

Dear Kandeer School Community,

Welcome to 2017. I hope you all have a peaceful and relaxed holiday.

We are excited to be starting a new year at Kandeer. We have so many exciting programs we are ready to launch into including service learning, project based learning and sport electives.

We will be introducing a program of **mindfulness** in the school which will help our students to stay alert, focus on the moment and pay attention to thoughts and sensations without judgment. This will be an ongoing program throughout the year.

We have structured our day differently. We are now going to be working through 7 lessons organized in periods. Each lesson is designed to engage our students in academic and practical activities that they can relate to. Because of this restructure **our day is extended to 2:40.**

Please pick up students at 2:40 instead of 2:30.

On Friday we will be having a School assembly at 12:30 to celebrate the success of our students. This will be followed by a **community BBQ. Please come along to assembly and the BBQ to help finish the week off in a positive way!**

Instead of our Wednesday morning breakfast, we are having **breakfast every morning at 8:45.** Students are most welcome to **come to school from 8:30 and breakfast will be served from 8:45.**

Thank you to all our Kandeer Community members who have supported us through 2016. We look forward to working with you again in 2017!

Every Friday 12:30

Kandeer's Assembly & Community BBQ.

Please come along!

Welcome to our NEW STAFF!!

Keith Baudinette is a talented teacher taking the senior class this year.

Keith brings an engineering background to the school.

Jake Lonergan is teaching the Middle class while Janelle is away for 4 weeks. He is an enthusiastic teacher who loves sports and cooking!

Bec Border will be joining the school community working as a Teacher. Bec is a passionate teacher who has worked at Leps previously to Kandeer.

Damien has a background in working with youth and carpentry. He is excited to be joining Kandeer as an SLSO and assisting with class and workshop programs.

*"Some people
need to know
their goal or
they can't
search at all.
For others,
though, the
quest itself is
enough."
Gerald Morris*
